## KATEPWE.

(From our own correspondent.)

Work has been commenced on  
the new school house here, the con-  
tract having been secured by Mr.  
Lauder.

The appearance of crops in this  
district excels anything ever seen  
here before and garden stuff of every  
description may be seen in great  
profusion.

Picnics seem to be the order  
of the day here. One on Monday  
at First Point, one on Friday at  
the same place and picnics without  
number next week.

If the crops in the Northwest  
yield according to the present ap-  
pearance the C. P. R. will need ex-  
traordinary moving and storing fac-  
ilities to prevent grain being again  
piled in the open air.

The stones are being landed  
below the bridge for the dam by  
Mr. Johnston. The barge he built  
for the purpose seems to give ex-  
cellent satisfaction and affords en-  
dless delight to the children here,  
who secure free rides when out of school.

## INDIAN HEAD.

Free Press correspondence.

Your correspondent devoted to-  
day to a thorough examination of  
the crops in the surrounding district,  
and was amply repaid by what he  
saw. On a farm four miles from  
town, Mr. Williamson's, he saw a  
field of wheat, measuring 185 acres,  
which old residents of Ontario say  
they have never seen equalled  
either there or in Manitoba. It is  
now headed out, and if nothing un-  
foreseen happens, should, looking to  
present appearances, yield 40 to 50  
bushels per acre. This is admitted-  
ly one of the best fields in the  
neighborhood, but for miles around  
there is a succession of fields which  
bid fair to rival, if not excel it, by  
harvest time. Go where you may,  
you find nothing but magnificent  
crops; and should frost not inter-  
vene, the quantity of grain to be  
marketed will exceed by ten-fold  
that of any previous year.

A cricket match was played be-  
tween teams from Indian Head  
versus Sintaluta and Ellishoro, in  
splendid cricket weather and result-  
ed in an easy victory for Indian  
Head by an innings and 14 runs.  
Both teams dined together in the  
Commercial Hotel and a thoroughly  
enjoyable day was spent by all.

On Friday first the home team are  
booked for a friendly game with  
Grenfell, and an interesting contest  
is expected, as in previous matches  
the play on both sides has been  
pretty even.

By the death of Mr. John Bor-  
land, which we notice in the obitu-  
ary of your paper, Indian Head has  
lost one of its best citizens and far-  
mers. For several years he occu-  
pied a seat in the municipal council,  
and rendered valuable assistance in  
framing of suitable laws for the  
guidance of the municipality. He  
will be greatly missed in his own  
immediate vicinity where he was  
looked upon as a man of good ster-  
ling worth and character. The  
country can ill afford to lose men of  
his stamp.

## REGINA.

Lieutenant-Governor Royal

says that he will carry out all prom-  
ises in regard to public business,  
made by his predecessor.

The Regina lawn tennis club  
is flourishing. The grounds are  
very nicely laid out, and are in the  
neighborhood of the Montreal bank.

Rev. Mr. and Mrs. Urquhart  
arrived home on the 7th inst., after  
a two months' tour through Mani-  
toba and the Western States, in-  
cluding Minnesota, Iowa and  
Colorado.

A very interesting game of  
cricket was played to day in the  
barracks ground between Regina and  
Fort Qu'Appelle clubs. The score  
was: 1st innings, Regina 21, Fort  
Qu'Appelle 41; 2nd innings, Re-  
gina 60, Fort Qu'Appelle making 41  
with 5 wickets to spare.

We have had plentiful showers  
of rain this week, and everything is  
growing almost phenomenally.  
Samples of grain thirty-eight inches  
in length and headed out are  
shown. Garden stuffs are coming  
into use fast. Mr. James Gordon's  
garden, south of the town, is well  
worth visiting, he has cucumbers  
18 inches long and tomatoes several  
inches in circumference.

A sad accident occurred on  
Saturday afternoon by which the nine  
year old son of Mr. William Glenn  
lost his life. The lad was leading a  
pony by means of a rope, which be-  
came fastened around the boy's body  
and the pony, taking fright, ran  
away, dragging the little fellow  
for half a mile. When the child  
was found life was not extinct, but  
he was so badly bruised and lacer-  
ated that death resulted a few min-  
utes after he was brought home.

## A WORD TO THE WISE.

The latest laws are such that  
newspaper publishers can arrest  
any one for fraud who takes a  
paper and refuses to pay for it.  
Under the law the man who allows  
his subscription to run along for  
some time unpaid or takes three  
papers from the post office, and then  
orders the post master to mark it  
"refused," and have a notice sent  
notifying the publisher, lays himself  
liable to arrest and fine same as for  
theft.

Dr. Meyer of Rolandie, N.W.T.,  
recommends Clinax Kidney Cure as  
the highest quality, 85¢ do all who have  
given it a trial. Dr. Clark's Sarsa-  
parilla for the blood, is meeting with  
like success.

## YORKTON.

—Dominion day passed off very  
quietly here.

—The Yorkton flour mills have  
stopped work and are not expected to  
recommence until the fall.

—Messrs. Lowe and Mevin late-  
ly returned from Ontario with a  
number of fine blood mares for their  
new ranch.

—The settlers are beginning to  
feel the want of a school in this  
neighborhood, and a meeting was  
held at Yorkton on the 24th ult.,  
with a view to taking steps in the  
matter.

—A large quantity of rain has  
fallen during the past fortnight,  
which is bringing the grain rapidly  
ahead. Farmers are well pleased  
with the outlook, and with favor-  
able weather large crops are expect-  
ed.

—Electioneering excitement was  
brought to a close on Saturday by  
the news of Mr. Reaman's return by  
a large majority. Every one around  
here seems well pleased with the  
result, and a large bonfire was lit  
in honor of the event.

## It Won't Be a Match.

A man whose hair and whiskers were  
plentifully sprinkled with gray was  
in the city yesterday to see about buying  
a large quantity of lead pipe. When  
he asked how much a mile and a half  
of a certain size would cost, the dealer  
stood off and looked at him in amaze-  
ment.

"Oh! I ain't loony," replied the man.  
"But what can you want of a mile  
and a half of this pipe, costing you  
many hundred dollars?"

"See here," replied the other, as he  
took a chair and became confidential.  
"I'm a widower."

"Yes."

"I'm thinking of taking a second  
wife. She does on a front yard. I've  
got the yard. She does on lawn orna-  
ments. I've been around priding stone  
dogs, cast-iron deer and terra-cotta  
rabbits till you can't rest. She does  
on fountains. That's why I want the  
pipe."

"But why so much of it?"

"Because I've got to run the pipe to  
a spring on a hill a mile and a half  
away."

When he had explained how much  
fall he had the dealer told him that he  
couldn't get fountain enough to dam-  
pen a millstone.

"Won't be no squirt to it, eh?"

"No."

"Won't squirt a foot high?"

"No, sir, not an inch."

"Well, no fountain, no marriage.  
She's not on that. I'll go back and  
get the facts with deck chairs and  
couches, and put stained glass  
windows in the horse barn, but I  
reckon the match is off. I've offered  
to get a force pump and hire a root by  
the year to work it, but she says it  
won't be pictures me. Might build  
a custom on legs and let the water play  
through a fountain, but she is too  
romantic. I can't do no more, and if  
she insists on a fountain with a squirt  
to it I'll look around for some one else  
—somebody who don't want Corinthian  
columns under the corn-crib and a  
Grecian facade to the pig-pen.—Detroit  
Free Press.

## MISCELLANEOUS.

—If not overloaded Esquimaux dogs  
will easily draw a sledge sixty miles a  
day.

The women of San Francisco will  
found a cemetery for sailors. Two  
thousand sailors are known to have  
been buried within the city limits since  
its foundation, and the grave of but  
150 are known.—San Francisco Call.

Dr. Seltzer, in the Boston Medical  
and Surgical Journal, recommends  
beef tea, made very hot with red pep-  
per, for delirium tremens. A London  
surgeon is stated to have treated 150  
cases successfully with this remedy  
alone.

Here is the last remedy for seasick-  
ness, taken from one of the French pa-  
pers: "Take no food during at least  
four hours previous to embarking. An  
hour before stepping on board drink  
one or two cups of very strong coffee  
(without cream)."

Florence Nightingale was born in  
Florence, Italy, and named for her  
birth-place. Her father's name was  
Shore, but was changed legally to  
Nightingale by the terms of an inheri-  
tance. Her present home is in London,  
but when well enough she journeys a  
good deal among reformatories and hos-  
pitals in Scotland and Germany.

It is now positively asserted that  
Mr. Henry E. Abbey has concluded ar-  
rangements under which Miss Sara  
Bernhardt will make another profes-  
sional tour of the United States under  
the management during the season of  
1888-9. The Bernhardt is to receive  
\$6,000 for each performance, and a  
graded share of the receipts when they  
are above a fixed amount.—Chicago  
Journal.

"That's my uncle over there," said a  
fast young man to his fast companion  
—"we're pretty near broke, and I'll  
strike him for a raise. He won't go  
back on me. Bet you the drinks I'll  
strike him for a ten and get it. The bet  
was made and the young man "struck"  
his uncle.

Finally the young man returned, his  
face flushed with triumph and some-  
times in his hands. "I told you I'd make  
it," he said; "may be we can make a  
hit on roulette with this." Then his  
companion looked at the bills, and there  
were only two one-dollar notes. "But  
you didn't get ten dollars, did you?" he  
inquired. "Yes I did," replied the  
nephew, as his tone changed to one of  
sadness, "only I had to take the other  
eight dollars out in good advice."—  
Chicago Herald.

## The New Pension Office.

The Government is erecting on Jud-  
gery Square in Washington a large  
structure for the exclusive use of the  
Pension Office, for which Congress has  
appropriated \$400,000. It is four  
hundred feet long and two hun-  
dred feet wide, the height being three  
stories, with a vast central sky-light  
ringing a full story above the main  
third story and lighting the court.

The roof of the inclosed court is supported  
by two rows of enormous columns.  
This court, with its triple colonnade on  
all sides, promises to be the best archi-  
tectural feature of the edifice, which is  
from the exterior suggests a temporary  
exhibition building, by the cheapness of  
its material and decorations. The en-  
tire structure is of brick, and the cor-  
nices and frieze are of terra cotta. Be-  
tween the second and third stories a  
yellow band, or frieze, three feet in height,  
is carried entirely round the building,  
and on this are represented scenes from  
military and naval life—inantry, arti-  
lery and cavalry on its march, wounded  
men, sailors in boats, etc. This much  
at least can be said in praise of the fig-  
ures, that they are not the stereotyped  
soldiers and sailors of the picture books,  
but seem to have been designed by some  
one who has seen actual warfare. They  
are too small, however, to be effective.

The building is not yet far advanced,  
but one or two things are clear. It will  
have the beauty of usefulness, which is  
lacking in so many of our public struc-  
tures, and it will be a wide departure  
from the conventional ideas that long domi-  
nated our Government architecture. For  
the purpose of providing a large num-  
ber of well-lighted and well-ventilated  
office rooms, the plan seems an excel-  
lent one. The architect is General  
Meigs, formerly Quartermaster-General  
of the army.—L. F. Stanley, in the Cen-

### FINANCIALLY CONSIDERED.

Last week we considered the gen-  
eral result of the late elections from  
a Prohibition standpoint. It may  
not now be out of place to discuss  
our new form of government from  
a financial point of view. The  
constitution of the Advisory Board  
will make a complete change in the  
manner of expending the money on  
roads and bridges and other im-  
provements. All monies expended  
by the Northwest Government will  
in future have to be advised by the  
Board and voted by the Legislative  
Assembly for a specific purpose.  
The money will not be divided up  
among the representatives as heret-  
ofore, and it will therefore be ne-  
cessary for the settlers of different  
localities that require expenditures  
of Government funds, to make their  
wants known to their member, in  
order that the matter may be dealt  
with by the Advisory Board and  
Legislature. Each member will  
not be in a position to say "I have  
so much money to spend, what will  
I do with it?" There may have  
been many good points in favor of  
the old system while the country  
was newer and the money under  
the direct control of the Lieutenant-  
Governor. The system was inex-  
pensive and about the only means  
of coming in direct contact with  
the people, and it was wisely ad-  
ministered by Mr. Dewdney. Now  
that an Advisory Board has been  
constituted to act as an executive  
with the Lieutenant-Governor, a  
new order of things will be estab-  
lished, as all money grants will have  
to be first recommended by the  
executive. The settlers will there-  
fore see the necessity of taking time  
by the forelock and making their  
wants known to their representa-  
tives. The Legislative Assembly  
will probably be called together in  
September, and by the time the  
session is closed there will be little  
opportunity of doing much this  
season in opening up roads. Still  
the money can be provided for  
needed improvements next season,  
and those needing them should  
make their wants known without  
delay.

### DISHONEST AND DISCREDI- TABLE.

The last issue of the Regina  
Journal contains some extracts from  
the columns of THE PROGRESS and  
calls them "Discreditable samples  
of Journalism." If the Journal  
had quoted honestly its editor could  
not have made the point he wishes  
to indicate by his heading. But  
honesty appears to be no part of  
our contemporary's makeup, espe-  
cially when it attempts to discredit  
THE PROGRESS, which has never  
been forgiven for offering to lend  
the Journal a sick roster with which  
to effectually express the feelings of  
its editor at the failure of its pre-  
dicted surprise party at the Dominion  
election in East Assiniboia. The  
extract from our issue of March 22,  
1888, is taken from an article which  
also contained the following:

"THE PROGRESS has objected to  
the appointment of a Frenchman to  
the Lt.-Governorship of the North-  
west, but it has not and does not  
object to Mr. Royal personally. We  
objected on the ground that the  
press of Quebec might take excep-  
tion to the appointment of an Eng-  
lish Ontario man to the Lieut.-Gov-  
ernorship of Quebec, or vice versa."

The above extract shows that our  
objection to a Frenchman being  
appointed Lieutenant-Governor of  
the Northwest was on general prin-  
ciples. We never objected to Mr.

Royal personally, and failing to  
quote anything to that effect from  
THE PROGRESS, the Journal's dis-  
honest and "discreditable" attempt  
to prejudice the new Lieutenant-  
Governor against us must fail of its  
intended effect. Mr. Royal, though  
a Frenchman, has during the whole  
of his career, shown himself to be  
first of all a Canadian. Our article  
of March 22nd indicated plainly the  
grounds on which we supported his  
appointment. So long as the ques-  
tion of race is made a factor in our  
Canadian politics, so long will THE  
PROGRESS object to the dominating  
influence sought to be maintained  
by some Frenchmen, or for the mat-  
ter of that English, Irish, German,  
or any other nationality. On the  
same principle we will be among  
the first to commend all who rise  
above other considerations and show  
themselves to be first of all true  
Canadians.

On the 22nd of December last  
the Journal contained the following  
choice tit-bit, which it no doubt  
considers "creditable":

"There is no scarcity of good  
men whose appointment to the  
Territories, its citizens would hail with  
pleasure, but they are not among  
that class of disgruntled Manitoba  
politicians, who have deserted pre-  
lection pledges, and for whom their  
constituents have prepared a recep-  
tion of unsavory hen fruit, of whom  
Mr. Royal is one."

If to speak out boldly against the  
dominating influence sought to be  
exercised by any nationality in our  
Canadian Government, and then to  
commend some individual of that  
nationality is discreditable, what  
will a discerning public say of the  
above specimen brick of Journal-  
ism? Even dishonestly as the ex-  
tracts are taken from our columns,  
put the above from the Journal  
alongside of them and then judge  
which is "discreditable." Chickens  
come home to roost. But it would  
seem that our contemporary, objec-  
ting to Mr. Royal was on what it claim-  
ed to be "his unsavory public record  
of unfaithfulness to public trusts."  
The same article was closed with  
the remark that the Journal would  
continue to object to his appointment.  
Outside of simple references to ex-  
tracts made from other papers, it  
has not "continued to do so." And  
in March last when we defended  
Mr. Royal against the foul slanders  
cast upon him, the Journal remain-  
ed silent as the tomb, not making  
an attempt to justify its "discredi-  
table" attack. If it can be honest  
for once our contemporary might  
tell its readers why its promise of  
continuing to object to Mr. Royal  
has not been fulfilled. And while  
he is about it, will the editor of the  
very honest and creditable sheet  
also give us his own private opinion  
of the man who wormed himself  
into the confidence of East Assini-  
boia's M. P., and then betrayed and  
misrepresented him to stir up a  
quarrel, in order to tree "two po-  
ssons instead of one," of which he  
brazenly boasted? Vide Parley-  
David embroglio.

THE PROGRESS was among the  
first to defend Mr. Dewdney against  
his old time traducers, whose vilifi-  
cations have been outlived by a wise  
and popular administration of North-  
west affairs. And we will be great-  
ly mistaken if Mr. Royal does not  
fulfill our prognostications of a suc-  
cessful career as Lieut.-Governor  
of the Northwest Territories.

The Moonshin Courier in ac-  
knowledging the receipt of a set of  
Journals of the Council of the North-  
west Territories from 1877 to 1887,  
says:

"These Journals are printed at  
Regina and we think them equal  
to any pamphlets or blue books  
turned out at Ottawa."

If the editor of the Courier will  
look at the page following the title  
of those books he will see that they  
were printed at THE QU'APPELLE  
PROGRESS office. The testimony as  
to the quality of the printing may  
be all the more valuable on account  
of the mistake.

The Victoria Colonist in editori-  
ally speaking of Mr. Joseph Royal,  
M. P. for Provender, and his ap-  
pointment to the Lieutenant-Govern-  
orship of the Northwest Territories  
says:—"No better selection could  
have been made by Sir John Mac-  
donald. The new governor has al-  
ways been true to the Liberal-Con-

servative party, is a model gentle-  
man, recognized by his friends as a  
jolly good fellow and withal a man  
of good ability and in courtesy and  
kindliness a typical Frenchman.

### FATHERS OF CONFEDERA- TION.

The Winnipeg Sun has arranged  
for a supply of the historic picture  
entitled "The Fathers of Confedera-  
tion." It is a delightful engraving  
of artistic finish, 26 1/2 inches by  
37 1/2 inches in size. It embodies  
life-like portraits of thirty-four of  
the leading men of Canada in 1864,  
including Sir John A. Macdonald,  
Sir George E. Cartier, T. D'Arcy  
McGee, Hon. George Brown, Hon.  
Oliver Mowat, Sir Charles Tupper,  
and Sir E. P. Tache. The scene is  
in the conference room at Quebec,  
the windows of which overlook the  
harbor and shipping, and the occa-  
sion is the conference which result-  
ed in the confederation of the colo-  
nies in 1867. It is a charming  
work of art, and possesses great  
historic interest. It is given free  
to every yearly subscriber to the  
weekly Sun, the price of which has  
been reduced to \$1 per annum.

Observe now, when the shrewd palm-  
ist is reading the lines of a hand, he  
sees the face with almost equal in-  
terest. These learned people know how  
the soul dwells in the eye, and the abil-  
ity to understand its language is inborn  
with most folks, without having to  
study it, though extremely sensitive  
persons have told me that more power  
of discrimination rested in their hands  
than they could read from every feature  
of the face, the fingers being so full of  
vision that they could feel a color with-  
out seeing it, so full of nerves that an  
impression was instantaneous and could  
be relied upon; so full of life that when  
their possessor was in love they tingled  
with an affectionate intoxication.

It is said that very quiet eyes that im-  
press and embarrass one with their re-  
pose signify self-command, but also  
much complacency and some conceit.  
Restless eyes that can not look one  
steadily in the face denote a doubtful,  
designing mind. Eyes in which the  
white has a yellowish tinge and is  
streaked with reddish veins prove much  
of strong passion and hasty tempers.  
Very blue eyes bespeak a mind inclined  
to coquetry; gray eyes signify dignity,  
intelligence and excellent reasoning  
faculties; greenish eyes, falsehood and  
a fondness for scandal. A malicious  
mind is often indicated by greenish  
eyes. Black eyes show a passionate,  
lively temperament, and oft-times a  
most deceitful disposition; brown eyes  
are generally tender and true, indicat-  
ing a kind and happy disposition.

### The Nechistongo Pass.

Some people think that the engineers  
of the Mexican Central traced their line  
through the Nechistongo Pass, merely  
obeying a professional prejudice that im-  
pelled them to overcome great difficul-  
ties. This pass is famous. It is a huge  
artificial canal made to drain the Mexi-  
can Valley and lead the waters of its  
salty Lake Texcoco to Lake Tula. It  
was cut by orders of the Marquis of  
Salinas, Louis de Velasco, Viceroy of  
Mexico, in 1563, and under the super-  
vision of the Jesuit Juan Sanchez. It  
measures nine kilometers—nearly six  
miles. No curve of the road is less  
than two hundred meters in length, and  
the steepest declivity is less than four  
miles and about one-half per cent.  
in dip. The rails of the Central are  
steel, with a weight of twenty-seven  
kilograms per linear meter. The crum-  
ples are fastened with four bolts. The  
sleepers are oak, two meters and two  
hundred and fourteen millimeters in  
length. The ballast of the road is the  
limestone formation of the pass, that  
insures its stability. An accident or  
derailment there could scarcely occur  
on account of poor condition of rails or  
roadbed.

Washing away of tracks is amply  
guarded against by great culverts to  
lead off the water that may come down  
on the tracks, while the possibility of  
land slides is guarded against, as the  
center of gravity falls inside of the base  
sustaining the roadbed. Retaining  
walls occur where sufficient slope could  
not be given to the track. The cliffs  
above the road where land-slides were  
possible have been cut away till danger  
from that source has been nullified.  
Though the soil is loose and washes  
easily, conduits and culverts clear the  
tracks. The inclines of the banks  
above and below the track are forty-  
five degrees, and careful investigation  
shows them to be substantially gran-  
ite walls. The Central Company now  
employs two watchmen, who are in the  
pass all the time, going back and forth.

REV. THE Traveller discusses the ques-  
tion: "Would you rather be blind or  
deaf?" in his latest work, "My Musical  
Memories," with his customary bright-  
ness and selflessness. The conclusion  
at which he arrives, with hardly an al-  
lowance for the opposite side of the  
case, is that blindness is by far the less  
evil. His argument is ingenious,  
thought not particularly logical, and  
will not convince many. To him whose  
ears are forever closed, and whose  
tongue may be forever tied, but whose  
eyes retain their sight, the whole world  
is open. Music alone, unless he be a  
musician whose deafness has come in  
later years, he can not enjoy. But  
nearly all else that there is in Nature,  
literature or art awaits his study and  
admiration. In what a narrow world  
must he move whose sight is gone!

The books are few that he can read by  
feeling, and only at second hand may he  
enjoy the written thoughts of others,  
or even be made aware of what the world  
is doing. Conversation with any one  
has been conceded as his, when com-  
pansions of his condition with that of  
his deaf and dumb brother have been  
made. But now that the deaf may  
know the speech of others by lip-read-  
ing, the advantage is all on the side  
of him who yet may see although his  
hearing is gone forever. —Boston Trans-  
cript.

—An eccentric hermit woman died  
recently at Shirley, England, and among  
her effects an old piano was sold for  
half a crown. It turns out to be of  
the year 1730, thirteen years after the  
making of the first piano in England.  
Others of some hundred and fifty dollars  
have been made for this antique, which  
is valuable in the history of piano  
making.

## Home & Gossip.

### Little Local Links in the Town's Chain of History.

#### QU'APPELLE.

—Sultry.

—Hear the crops grow.

—Wheat is heading out.

—There are some cesspools in town which the health inspector should look after.

—Mr. C. T. Bailey has been promoted to the management of Mr. Caswell's store. Congratulations, Charley.

—Mr. Boothe has purchased the stock of Mr. Battiscombe Bros. at Sinaluta and has gone there to engage in business.

—The Qu'Appelle Cricket club will play a match with the Regina club tomorrow, Friday, the 13th inst., at the town of Regina.

—Mr. Wm. Treewartha, of Sec. 34, 17, 16, south of McLean, measured some of his growing wheat yesterday and found it 43 inches in length.

—It is probable that the C. P. R. employees between Broadview and Moose Jaw will hold their annual picnic here again this year. The date is not yet fixed.

—Messrs. Battiscombe Bros., of Sinaluta, are advertising an auction sale at Qu'Appelle of thorough-bred stock, horses, first-class farm implements, etc., on the 21st inst.

—Does not the health by-law as well as the herd bylaw prohibit the running at large of pigs? Say, Mr. Nuisance-Inspector, is it not your duty to run them into the pound?

—Some of the wheat growing in this vicinity contains a little wild mustard that ought to be pulled. It will never do to let it go to seed. The Legislative Assembly should pass a strict law to compel the eradication of all noxious weeds.

—Mr. L. G. Bell, Sec. 6, 18, 14, this week discovered two Colorado potato beetles and their eggs on his farm this week. They were on the plant known as the wild tomato, a species of solanum, being of the same family as the potato, tomato, tobacco, etc. Everybody should look out for and suppress them with a high hand.

—At the Squirrel Hills picnic yesterday, some one made the remark that the Ellsboro Base Ball Club could show our boys a thing or two. On their behalf we would say that they are prepared to play Ellsboro or any other club that have any aspirations that way, and we think they know enough points to bat them all around the field.

—The Winnipeg Free Press copies the dirty work of the Regina Journal in reference to THE PROGRESS and Lieut.-Governor Royal. When the Free Press cleans up its own door step it may then talk of others. Though the extracts are dishonestly taken, read just as garbled by the Journal and copied as if extracted by the Free Press itself, they would be perfect gems of consistency when compared with the lofty tumbling of a paper that one issue will strenuously advocate the election by acclamation for the Dominion Parliament of a man who a few weeks later it cannot find language bitter enough to assail.

#### THE PIC-NICS.

##### DEEP LAKE PICNIC.

The picnic at Deep Lake today was a grand success. The spot selected is a most beautiful one, and everybody in the big crowd present enjoyed themselves. The committee had every possible preparation made for the entertainment of their guests. They had base ball and lawn tennis outfits and tables prepared upon which they lunched at 12.30 and 1.30 o'clock. A grand platform was erected on which those wishing to do so danced to music by Major Nesbit on the violin. There was also boating on the lake besides a number of swings which had been erected. The tug of war had not taken place when our informant left.

##### SQUIRREL HILLS PICNIC.

A picnic could not be more successful than that held at Squirrel Hills Springs today. A large procession was formed in the morning in Qu'Appelle, the rigs being decorated by numerous large and small Union Jacks, and ample accommodation for all who desired to go. Besides the procession a great many went on their own account, some earlier and some later. The Methodist Sunday School with a number of their invited young friends formed a part of the procession. By eleven o'clock the grounds were literally swarming with children and adults. The committee was comprised of Messrs. T. Livingstone, J. Good and E. Beech, who had made the most complete preparations on the grounds. Tables, swings, a platform for singing and

speaking seats, and other conveniences were provided for the enjoyment of all who should attend. The church organ was taken out by the Rev. A. Andrews to assist in the musical line. Two nines from the Qu'Appelle Base Ball Club went out to give on exhibition game and soon got to work. Lunch was partaken of at 12.30 and 1.30 o'clock, a bountiful supply of provisions with tea and lemonade having been provided. The amusements were swinging, croquet, four hand ball by the ladies, and the exhibition game of base ball which was played in splendid style. Mr. A. C. Paterson acted as umpire. The following is the score:

NAME.	TEAMS.	POSITION.
Drury	.....	Catcher.
Vickers	.....	First Base.
Page	.....	Left Field.
Warner	.....	Short Stop.
Fallis	.....	Second Base.
McFarlane	.....	Centre Field.
Craig	.....	Third Base.
Grievs	.....	Right Field.
Capt. Hudson's team:		
Hudson	.....	First Base.
Ott	.....	Second Base.
MacInnes	.....	Catcher.
Travis	.....	Short Stop.
McConnell	.....	Left Field.
Beauchamp	.....	Centre Field.
Gray	.....	Third Base.
Gibson	.....	Right Field.
Clements	.....	Pitcher.

Score by innings:

Drury's Team	20 122 1200-10
Hudson's Team	6 7 506 4052-35

The most amusing if not the most scientific event of the day was a base ball match between two nines of men who knew nothing of the game by practice. They were divided into married and single nines, and played two innings each, resulting in favor of the married men by a score of 15 to 10. This match was umpired by Mr. D. S. McConnell. About 15.30 the crowd were gathered in the grove and Mr. James Weidman called to the chair, when brief and entertaining addresses were delivered by Messrs. G. H. V. Bulyea, G. S. Davidson, M. T. L., D. S. McConnell, Rev. A. Andrews, and others. The speeches were interspersed with singing, the organ being presided at by Mrs. Bulyea. About six o'clock all started for home, having enjoyed themselves to the utmost. Everything during the day was of the most agreeable character, and the weather was all that could be desired.

#### OBITUARY.

We deeply regret to have to record the death of Mr. Henry John Edwards who was the eldest son of H. J. Edwards, Esq., M. D., of Fauve, Greenville, Jersey, Channel Islands, and immigrated to the Northwest in 1883. He first took up a homestead at File Hills. Not being accustomed to farming and finding it too slow he took up his residence in Qu'Appelle and engaged in cabinet making since 1881. During his residence here by his geniality and many amiable qualities had become a universal favorite. He was for some time organist in St. Peter's Cathedral of this Diocese, and whenever and wherever an organist was required he was always willing to give his services. He only returned about three months ago from a visit to the Old Country. Since then he was working on the Industrial School building at Fort Qu'Appelle, and returned somewhat indisposed two weeks ago last Saturday. He was not considered seriously ill, and was even sitting up on Monday last. During Monday night, however, he suddenly became worse and on Tuesday morning the physician who was attending him gave very little hope of recovery. Another physician was summoned from the Fort, to hold a joint consultation. Before he arrived, however, it was evident Harry was dying, and at 16 o'clock he breathed his last. The news of his death soon spread and cast a gloom over the town. The deceased's malady was typhoid fever and the immediate cause of death was ulceration of the lower bowel. During his last illness he was at the residence of S. H. Caswell, Esq., banker and postmaster of this town, and received every possible attention. His bosom friend Mr. Jagger, teller in Mr. Caswell's bank, was most devoted in his attentions to Harry's wants while ill, and was the chief mourner at his interment. Mr. E. Tomkins, of Fort Qu'Appelle, was also a mourner being the only relative of the deceased in this country. Wednesday evening at 18.30 o'clock the members and visitors of Qu'Appelle Lodge of Free Masons, (of which he was Chaplain) met at the Masonic Hall and formed in procession to Mr. Caswell's residence and from there to St. Peter's Cathedral, where a choral funeral service was conducted by Rev. W. A. Lyon, who preached a most excellent and appropriate sermon. The remains were then conveyed to the cemetery where they were interred with full Masonic honors, the impressive service being conducted by Right Worshipful Brother James Weidman, the District Deputy Grand Master of the District, assisted by Worshipful Brother A. C. Paterson, the Master of Qu'Appelle

Lodge. W. Bros. G. H. Gamble and D. McIntosh and other brethren of Indian Head Lodge were present.

To the Editor of The Progress.

SIR: Permit me, briefly, through your columns, to express my heartfelt thanks, for the many acts of kindness towards my lamented deceased friend and myself during this severe affliction. Words cannot express my appreciation of the sympathy of our many friends.

Yours, etc.,

HAROLD JAGGER.

To the Editor of The Progress.

SIR: Allow me on behalf of the father and other relatives of the late Mr. Henry J. Edwards, whose loss we so deeply deplore, to express my thanks to all those who so kindly interested themselves in him during his late sad illness. Nothing I am sure could exceed the kindness shown to him, nor could he have had better attention had he been in his own home.

To one and all of the Masons who took charge of the funeral arrangements and by their presence showed the respect in which they held him, to Mr. Jagger whose personal friend he was and whose unmitting attention throughout could not be surpassed, and to the ladies who so kindly sent floral decorations I would again express my best thanks.

Yours, etc.,

EDWARD TOMKINS.

#### FACTS AND FIGURES.

—More than a hundred thousand acres of sorghum have been planted in Kansas this year.—Chicago Journal.

—The average life of a locomotive is thirty years, during which one, if in active use, will travel about 700,000 miles.

—Land operations in Texas are carried on upon a huge scale. A tract of 125,000 acres was disposed of in a lump the other day.

—The manufacture of carriages and buggies in Cincinnati employs \$3,000,000 capital, 6,000 hands, and yields a product of \$10,134,252 per annum.—Cincinnati Times.

—Arkansas furnishes the largest percentage of farmers, 88.1, and Massachusetts the smallest, 9 per cent. Georgia has the greatest number of agricultural workers, 422,204, Wyoming the smallest, 1,333.—Chicago Tribune.

—One firm employs twenty-four steamships in bringing fruits from the Mediterranean ports to New York City. Twelve of them are passenger vessels, the greater parts of whose cargoes are composed of fruit. The other twelve are freight vessels, whose western cargoes are composed wholly of fruit.—N. Y. Sun.

—A Parisian daily paper claims a circulation of 750,000. This is probably due chiefly to the fact that Paris is the very heart and center of France, and Parisian news and opinions have therefore special interest and importance. There is no such centering of interest in the United States, because of the wide extent of the country and the number of great cities of a metropolitan character. If New York was to the United States what Paris is to France, there would be more than one newspaper there with as large a circulation as the Parisian journal.—Current.

—The Clerk of the House and the Secretary of the Senate each get \$5,000 a year, as do the stenographers in Congress, the two Comptrollers of the Treasury, a number of Surveyors of Customs and the Commanders of the Navy. Pension agents get \$4,000 a year, the Civil-service Commissioners \$3,500, the two Assistant Attorneys-General \$5,000, eight Justices of the Supreme Court \$10,000, nine Judges of the Circuit Courts \$8,000, and fifty-three Judges of United States District Courts from \$3,500 to \$4,500.—Washington Post.

—Robert Thompson, a wealthy young Georgian, on route from Louisville to St. Louis in a Baltimore & Ohio sleeper, dreaming of a swimming tournament, and, imagining himself on a springboard in a sanatorium, walked to the platform and plunged off. Fortunately, the train was running through a level country, and his leap did not result seriously.—St. Louis Globe.

—The absurd office of King's cock-crower was continued so late as the reign of George I. During Lent an officer denominated the "King's Cock-crower," crowed the hour every night within the precincts of the palace, instead of pronouncing it in the usual manner.
